Rabbits

Due to a number of cases of VHD2 (Viral Haemorrhagic Disease) locally, we will no longer be selling rabbits in our stores.

VHD2 is a lethal disease that can **ONLY** be prevented through vaccination. It is spread via contact and as we cannot control where our customers have been prior to coming into our stores, we feel it far safer to cease the sale of rabbits completely.

For more information on this disease, follow the link to the Rabbit Welfare Website :
